Company: King County Airport Re: American Avionics Stockpile
Attn: Jeff Winters Job #: 96-092
Fax #: 296-0190 Pages Accompanying: 1

Jeff

We have received your fax. Our bid to export the stockpile breaks down as follows:

1,100 CY @ \$4.75	\$5,225.00
Street cleaning, subcontract	\$500.00
Street cleaning, labor (8 hrs)	\$323.00
Visqueen matt & pile protection, materials	\$685.00
Visqueen matt & pile protection, labor (16 hrs)	\$540.00
Attorney's fees	\$454.00
SUBTOTAL	\$7,727.00
CONTRACTORS OVERHEAD & FEE	\$773.00
TOTAL	<u>\$8,500.00</u>

If you would like we can delete the street cleaning and/or the pile protection and you can do this with your own resources. The hold harmless agreement is our requirement and as such part of the cost to perform the work. Please be aware that there is a risk in defining this pile with (10), 3' deep test pits. The materials came from various sources on the site. If this issue was left to Foushee to solve we intended to subcontract with TPS Environmental. They intend to export the contaminated materials from the future Paul Allen site and present the "cleanest" and cheapest solution to dealing with this. We have attached their quote. The 1,060 CY translates into approximately 1,500 tons. The total cost comes to \$54,750.

Please call back and have me paged if you would like to discuss this further.

Eric Jones
